

AMFA – SWA Aviation Safety Action Program (ASAP) Event Review Committee (ERC) Representatives Candidate Profiles

In an effort to provide AMFA members with basic information about candidates for union office, AMFA National has offered all candidates in this election an opportunity to submit a Candidate Profile along with their picture. Profiles were limited to 200 words and are unedited except for inappropriate content. AMFA National does not endorse any candidate for union office nor was any candidate given special treatment.

Primary Representative Candidate

Scott Paine

It's been my pleasure to serve as your Primary ASAP representative for the past 6 years. My job is to represent all of our AMFA members that choose to voluntarily use the ASAP program, and to ensure that both the FAA and Southwest Airlines compliance with the Memorandum of Understanding. **Now** more than ever it is important that we elect a person that understands how the ASAP program works, and is able to work together with all members of the ASAP Event Review Committee. Experience and commitment are the **key** ingredients to having a successful ASAP program. I am looking forward to representing you in the future. Thank you for your time and support.

Alternate Representative Candidates

Larry Dildine

I have worked at Southwest since 1989. When the ASAP program was being formulated, I was part of the talks in designing our MOU. I have served as both Primary, during our past negotiations, and as the Alternate Committee Member. During my past time as representative, I was involved with the training program for our liaisons. When the company repositioned the ASAP program manager, I was asked by the other committee members to serve in that capacity during the interim until the position was filled permanently. I believe with the changing regulatory environment and increased scrutiny we are now under that for the protection of our members livelihoods this is one of the most important elected positions in our Association. If the need to travel to investigate a situation should arise, I am willing to go where ever I am needed. I enjoy the research side of this position as well as trying to figure out changes in our operating system to prevent similar future errors. I believe my past work in this position helps me in my capacity on the AMFA GO Team. I would like to thank you for considering me for this important position.

John J Paonessa

I've been your AMFA Alternate ASAP Event Review Committee Representative for the last four years. With all the changes we have seen in our industry, and many more changes anticipated in the future, it's **VERY** important to keep continuity and experience in this valuable Safety program! This is important in ensuring the program is handled professionally, according to the Memorandum of Understanding guidelines. Also, it is to ensure our membership who need and wish to use it, are afforded the best possible representation at any time. Thank you for your time in reading this, and please remember to place your vote when you receive your ballot!
